Jaipur, Rajasthan, 302026

Actively pursuing a dynamic position in a startup environment, leveraging technical proficiency and effective communication abilities to enhance sales performance and foster company expansion

Education

2021

Bachelors Computer Science & Engineering from JK Lakshmipat University Jaipur

2016

12th Standard from KVS Mumbai Maharashtra

Core Competencies

Front-end Development

User Interface Design

Component-based Development

Problem Solving

Software Development Lifecycle

Coding & Programming

Project Management

Software Quality Assurance

Code & Quality Standards

Risk Management/ Risk Response

Technical Skills

HTML	Adobe
CSS	Express
Sass	Tailwind
JavaScript	BootStrap-5
React.js	AWS-S3
Java	Vercel
OOPS	Netlify
Git	

Profile Summary

- Accumulated 1 year of experience in Software Engineering, with a specialized focus on Photography and Videography.
- Actively lead as the CTO at The Chaya Chitra, a startup dedicated to the advancement of Photography and Videography.
- Demonstrated a consistent record of effectively handling daily client communication with a substantial volume.
- Understanding of Software Development Lifecycle (SDLC) & Software Testing Life Cycle (STLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications.
- Gained knowledge to design various application software solutions driving continuous improvement in processes, systems, workflow and customer responsiveness.
- Skilled in implementing and creating the full lifecycle process for large-scale application software development.
- Excel in constructing and managing company websites, leading to a notable surge in sales.
- Possess expertise in React.js, Node.js, Tailwind, and various other pertinent technologies.

Achievements

- Successfully executed the development of a cutting-edge waste-management application utilizing React Native and Node.js, aligning with the company's dedication to sustainability.
- Constructed a captivating website for EcoWrap.inc leveraging Bootstrap, significantly amplifying the company's online visibility and brand reputation.
- Spearheaded the development and upkeep of company websites, resulting in a remarkable sales surge of over 20%.

Career Timeline

May'19-Jul'19

Jan'21-Dec'21

Work Experience

Jan 2021 – Dec 2021 | CTO

The Chaya Chitra, Jaipur (<https://the-chaya-chitra.vercel.app/>)

Key Result Areas:

- Monitoring daily communication with an average of 20 clients, ensuring their needs and requirements were fully addressed
- Fostering collaboration with Cross-Functional Teams to optimize operations and enhance overall efficiency.
- Also, developed and maintained the company's website.
- Performing comprehensive market research to pinpoint emerging business prospects and formulate growth-oriented strategies.
- Implementing a Customer Relationship Management System, resulting in improved client satisfaction and retention rates.
- Streamlining internal processes and workflow, leading to an increase in operational efficiency and cost savings.
- Developing flowcharts, layouts and documentation to identify requirements and solutions.
- Writing well-designed, testable code.
- Producing specifications and determining operational feasibility.
- Documenting and maintaining software functionality.
- Troubleshooting, debugging and upgrading existing systems.
- Deploying programs and evaluating user feedback.
- Complying with project plans and industry standards.

Internship

May 2019 - Jul 2019: Internship at Bodhisatva Artificial Intelligence, Jaipur, Rajasthan

- Implemented a waste-management app using React Native and Node.js.
- Built a website for EcoWrap.inc using Bootstrap.

Projects Executed

Fiesta La Blanc

React.js

- Developed a dynamic restaurant menu web application using React.js, providing an engaging and user-friendly interface for customers to explore the restaurant's offerings.
