“As a web developer, I strive to bridge the gap between design and functionality, crafting seamless digital experiences that balances user-centric aesthetics with robust, efficient code.”

## Education

- 2021  
Bachelors Computer Science & Engineering from JK LakshmiPat University Jaipur
- 2016  
12th Standard from KVS Mumbai Maharashtra

## Core Competencies

- Front-end Development
- User Interface Design
- Component-based Development
- Problem Solving
- Back-end Development
- Software Development Lifecycle
- Coding & Programming
- Project Management
- Code & Quality Standards

## Technical Skills

HTML	Express.js
CSS	NoSql
Sass	SQL
JavaScript	Adobe
React.js	Tailwind
Java	BootStrap-5
OOPS	AWS-S3
Git	Vercel
Node.js	Netlify
MongoDB	

## Profile Summary

- Actively lead as the team lead at Luytens technology Solutions, managing both frontend and backend development.
- Understanding of Software Development Lifecycle (SDLC) & Software Testing Life Cycle (STLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications.
- At The Chaya Chitra demonstrated a consistent record of effectively handling daily client communication with a substantial volume.
- Skilled in implementing and creating the full lifecycle process for large-scale application software development.
- Possess expertise in React.js, Node.js, Tailwind, and various other pertinent technologies.

## Achievements

- Spearheaded the development and upkeep of company websites, resulting in a remarkable sales surge of over 20%.
- Constructed a captivating website for EcoWrap.inc leveraging Bootstrap, significantly amplifying the company's online visibility and brand reputation.
- Managed and implemented Robust and scalable code base for faster and efficient coding.
- Successfully executed the development of a cutting-edge waste-management application utilizing React Native and Node.js, aligning with the company's dedication to sustainability.

## Work Experience

Jan 2022 – Present | Web Developer  
Luytens Technology Solutions, Noida, Uttar Pradesh

### Key Result Areas:

- Led a team of developers in frontend and backend development at Luytens Technology Solutions, focusing on user-centric design.
- Implemented system design and architecture concepts to create robust and scalable software solutions.
- Developed expertise in frontend development and managed cross-functional teams to deliver high-quality projects.
- Enhanced skills in system architecture and design principles to drive innovation and efficiency in software development.

Jan 2021 – Dec 2021 | Technical Engineer  
The Chaya Chitra, Jaipur, Rajasthan

### Key Result Areas:

- Monitoring daily communication with an average of 20 clients, ensuring their needs and requirements are fully addressed.
- Also, I developed and maintained the company’s website. Which led to a 20% increment in our sales.
- Also, I worked on refining my skills in Photo and Video editing. (Adobe Photoshop & Premiere)
- Implementing a Customer Relationship Management System, resulting in improved client satisfaction and retention rates.

## Internship

May 2019 – Jul 2019 | Intern

**Bodhisatva Artificial Intelligence, Jaipur, Rajasthan**

Key Result Areas:

- ☹ Implemented a waste-management app using React Native and Node.js.
- ☹ Built a website for EcoWrap.inc using Bootstrap.

## Projects Executed

**Juleo**

**React.js, Tailwind CSS, React-router, TypeScript**

- ☹ Created an interactive dating platform for Juleo with React.js, Tailwind CSS, and React Router, designing adaptive UI components, enhancing performance, and enabling smooth transitions across features and pages. Worked closely with the client to provide intuitive and captivating user experience.

Code: <https://github.com/Vargos98/restaurant-react-app>

**React Essentials**

**React.js**

- ☹ This project enables beginners to learn and experience various React tools and syntax. It can significantly assist new React enthusiasts in starting their coding journey and learning from the examples it provides. The project has been meticulously crafted with a focus on user experience and practical use.
